

## SUPERLEGGERA VELOCE12

A Reverie of Italian Elegance and Performance

Imagine the golden era of grand tourers—a time when elegance and distinction turned every journey into an adventure. Picture hand-crafted beauty so rare that it makes you feel special the moment the garage lights flicker to life. Envision an era before digital distractions and muted small engines, when cars spoke with soul and purpose rather than shouting for attention.

Imagine witnessing the sunrise over serene lakes and the sunset behind majestic mountains in a single day, all thanks to the symphony of a powerful, naturally aspirated V12. This is not just a dream—it is the essence of what Touring Superleggera has embodied since 1926.

Touring Superleggera has always been synonymous with Pure Italianità, capturing the very spirit of Italian craftsmanship and culture. Our legacy is built on a commitment to perfection, where artistry in design meets cutting-edge engineering. With the Veloce12, we bring this legacy into the present day, crafting a masterpiece that harmonizes luxury and performance.

The Superleggera Veloce12 is a tribute to pure driving pleasure, merging traditional craftsmanship with precise engineering for those who crave an unfiltered, analog experience. It defies the electronic excess of modern vehicles, celebrating a time when driving was about the connection between driver and machine rather than chasing lap times or clipping apexes.

At its heart lies a naturally aspirated 5.5-liter V12 engine, echoing the legendary Gran Tourers of the past. With enhanced exhaust and cooling systems, this engine now delivers a thrilling 503 horsepower—25 more than its predecessor. This powertrain embodies the spirit of Touring Superleggera: a perfect blend of performance and elegance.

The Veloce12 is not just about performance; it is about living life to the fullest. Inside, it embodies Pure Italianità with its lavish Italian materials and limitless color options. The interior is a sensory delight, crafted to elevate the driving experience with its exquisite textures and finishes.

Externally, the Veloce12 challenges conformity with its carbon fiber bodywork, a masterpiece of exotic elegance and futuristic design. The adaptive suspension allows for precise damping adjustments tailored to any road condition, ensuring a dynamic and engaging drive.

A reinforced chassis enhances modern torsional rigidity, while the braking system, with larger discs and upgraded calipers, ensures exceptional pedal feel and performance. The exhaust system amplifies the V12's roar into a symphonic crescendo, while the cooling system boosts efficiency by 30 percent.

The Veloce12 is a celebration of Pure Italianità. It captures the soul of Italy through a unique blend of craftsmanship, creativity, and a deep appreciation for beauty and quality. This is a car that not only pays homage to our illustrious past but also looks to the future with a precision that remains true to our roots. In every detail, the Veloce12 represents the essence of Italian elegance and performance, delivering an unforgettable driving experience that stands as a testament to Touring Superleggera's enduring legacy.
